(The Order of Pangea informational brochure)

The Order of Pangea is a public school completely funded and administered by The Sovereign Nation of Pangea.

Overview of Unique Attributes:

The Order of Pangea is an innovative school for the brilliantly gifted. It is located in and makes up the entirety of the Sovereign Nation of Pangea, established as a sovereign principally in 2019. The Sovereign Nation of Pangea exists on a six-level top-of-the-line cruise ship and the 12 nautical mile radius of sovereign waters that surrounds it. The ship travels through international waters around the world and makes frequent stops at other countries. Each student will have their own Holographic Personal AI Instructor (HPAII). This school provides education from 9th year of learning to a PhD. The total time required to complete this is merely 8 years. This is because we believe HPAII will greatly expedite the learning process, allowing our students to learn PhD level content in less than 8 years with only middle school experience.

Our Layout:

Our layout consists of 7 floors, each with a specific purpose.

1. This is the topmost floor and is home to our outside transportation link and defense. This floor houses our airport and rail station.
2. Residential & Recreational: We aim to provide a forested area with walkways and lazy rivers with falls to provide a soothing step away from your dorms. This floor along with housing the dorms also houses the school of zoology.
3. This floor has student resources, study rooms, and field specific labs along with all departments.
4. This is the entertainment level, complete with anything many amenities.
5. Kitchen, Laundry, Gym, Storage
6. Server
7. School of Marine Biology

Admissions

Students interested in applying to the Order of Pangea must fill out a preliminary online application to share their experience, ambitions, and areas of interest. If we deem the student may be a good fit for our school, we will reach out to them to begin the interview process. This interviewing process is based on real-world problem solving. Only 2.6% of students who begin the interview process ultimately end up accepted at Pangea.

More Information:

All other information is located on our website, such as:

- Handbook with rules and expectations
- Pictures of our layout
- More detailed curriculum
- Greater history
- Student Life
